Professional Summary

Computer Engineering student with hands-on experience developing full-stack web applications, database-driven systems, and machine learning applications. Strong foundation in programming and problem-solving, with an interest in software quality, functional validation, and application reliability.

Education

B.E. in Computer Engineering *2023 – 2027 (Expected)*
Vidyavardhini's College of Engineering and Technology, Mumbai University **7.85 CGPA**
H.S.C. – Ismail Yusuf College, Mumbai 2023 | 75.5%
S.S.C. – Dr. N.P. Shah English Medium School 2021 | 85.8%

Technical Skills

Programming Languages: Java, Python, JavaScript, C++
Frameworks/Libraries: React, Next.js, Flask, TensorFlow, Keras
Web Technologies: HTML5, CSS3, REST APIs
Databases: MySQL, PostgreSQL, MongoDB
Tools: Git, GitHub, VS Code, Cursor
Core Concepts: Object-Oriented Programming (OOP), DBMS, Authentication and Authorization

Projects

VyaparFlow *Next.js, TypeScript, Prisma, PostgreSQL*

- Built a full-stack export-readiness platform for Indian MSMEs featuring readiness scoring, compliance workflows, document generation, and shipment tracking.
- Implemented role-based access for exporters, service providers, and administrators, with backend workflows and database integration.

ResearchS – AI-Powered Research Assistant *React, FastAPI, PyTorch, Transformers*

- Developed an NLP application for academic paper processing, PDF text extraction, summarization, and question answering.
- Evaluated summarization outputs using ROUGE metrics and compared model inference times.

Brain Tumor Detection System *Python, TensorFlow/Keras, Flask*

- Developed a VGG16-based transfer learning model to classify brain MRI scans into four tumor categories, achieving 95% test accuracy on the evaluation set.
- Integrated the model into a Flask application for MRI uploads, preprocessing, and predictions with confidence scores.

KrishiSahayata *Code-o-Fiesta Hackathon – Top 6 Finalist*

- Co-developed an agri-tech platform featuring crop management, soil health tracking, weather information, and equipment rental.
- Implemented frontend modules with location-based and multilingual functionality in a three-member team.

Experience

Web Development Intern – Octanet Services Pvt Ltd *Dec 2024 – Jan 2025*

- Developed responsive web pages using HTML, CSS, and JavaScript based on client requirements.
- Delivered 5+ client-ready pages within four weeks, maintaining responsive layouts and cross-browser compatibility.

Frontend & Backend Development Intern – CodeAlpha *Jul 2025 – Aug 2025*

- Completed assigned development tasks across frontend interfaces and backend workflows during a virtual internship.
- Applied web development fundamentals to implement features and understand full-stack application workflows.

Certifications

Infosys Springboard

- Programming Fundamentals using Python (Parts 1 & 2)
- Java Programming Fundamentals

Leadership & Extracurricular Activities

Joint Secretary – Computer Society of India (CSI), VCET
Support committee coordination, technical activities, and student engagement, contributing to the chapter's operations and demonstrating leadership and organizational responsibility.
